Allowable Subject Matter

1. Claims 1-19 are allowed.

Regarding Claim 1, Flick and Kominami do not teach, alone nor in combination, the steps of:

Transmitting an acknowledgement message from a control module to a receiver module along a communication bus in response to the control module receiving a first message;

Retransmitting said first message from said receiver module to said control module along said communication bus in response to said receiving module receiving said acknowledgement signal; and

Initializing a vehicle system command from said control module to at least one vehicle system in response to said control module receiving said retransmitted first message, thereby preventing an inadvertent activation of said at least one vehicle system.

Regarding Claim 8, Flick and Kominami do not teach, alone nor in combination, the steps of:

After a first message is received by a control module from a receiver module along a communication bus, transmitting an acknowledgement message from said control module along said communication bus, said acknowledgement message received by said receiver module, and retransmitting said first message from said receive module along said communication bus, said retransmitted first message

received by said control module, thereby preventing an inadvertent activation of said at least one vehicle system.

Regarding Claim 15, Flick and Kominami do not teach, alone nor in combination, the steps of:

a powertrain control module transmitting a request acknowledgment message to a receiver module via a communication bus in response to a remote start request message;

said receiver module transmitting a confirmation message to said powertrain control module via said bus in response to said request acknowledgment message; and

said powertrain control module initiating starting of a vehicle in response to said confirmation message.
